

## TAXI RIDES PAID FOR, SAY POLICE OFFICIALS

Waldo "Satisfied" When Shown  
Receipted Bills for Alleged  
"Charge Accounts."

### RUSH TO DENY "GRAFTING"

Six Aldermen Sign Waivers of  
Immunity—Receipts a "Mat-  
ter of Bookkeeping," Dis-  
trict Attorney Believes.

Police officials and others who have been mentioned so far in the District Attorney's investigation of alleged irregularities between the taxicab companies and certain aldermen and other public officials to hold up the proposed ordinance for reducing taxicab rates hastened yesterday to deny that they had enjoyed "free rides" or other favors from the Yellow Taxicab Company or any of the other companies.

Inspector George F. Titus, in charge of the traffic squad; Inspector Robert E. Dooley, in charge of the Coney Island district; Captain Thomas H. Murphy, in command of the Coney Island station; and Captain William F. Day, of the West 122d street station, were called to Police Headquarters and questioned by Commissioner Waldo about the "charge accounts" they were said to have had with the Yellow Taxicab Company.

Inspector Titus and the others as well, it was understood, admitted that they ran charge accounts with the company, but they produced receipted bills for the monthly accounts, which explanations apparently "satisfied" the Commissioner.

#### Prosecutor Not Satisfied.

When told of the appearance of the police officials at Headquarters and their "satisfactory" explanations, Joseph Du Vivier, Deputy Assistant District Attorney, who is conducting the taxicab inquiry before the grand jury, remarked that "the Commissioner was easily satisfied." Mr. Du Vivier also said that he would be glad if James G. Wallace, Jr., chief of the License Bureau, who emphatically denied that he had been favored with free transportation by the Yellow company, would call and tell him the same thing.

It appears that some of the evidence in the hands of the District Attorney tends to controvert the assumption that because the officials mentioned are able to produce receipted bills for their "charge accounts," it necessarily means that such bills have actually been paid. It is understood that officers of the Yellow company have testified, or will so testify, before the grand jury.

While the "charge accounts" in this class are said to appear to be balanced each month on the ledger of the company, the fact remains, according to the District Attorney's information, that such entries were made merely as a "matter of bookkeeping," and ostensibly for the purpose of covering up the "free list."

Inspector Titus told Commissioner Waldo, it was said, that his taxicab bill with the Yellow company for four months amounted to only \$11.10, which he declared he had paid. The other police officials also had "small paid accounts," it was asserted. Inspector Titus further informed the Commissioner that he had never received a gratuity from the Yellow Taxicab Company or from any other company operating public conveyances.

#### Wallace Paid for Rides, Too.

Chief Wallace of the License Bureau told a reporter for The Tribune that he had paid for all the rides he ever had in the Yellow taxicabs. He declared that he had never received any favors from, or favored, any of the taxicab companies since he had been in office.

"Only within the last two months," he said, "I have revoked the license of two private stands for the Yellow Taxicab Company because they violated the terms of the license. That doesn't look as if I favored that company. Besides, I have always co-operated with Aldermen Marks and Bolles and the minority members of the taxicab ordinance committee to obtain an ordinance reducing the taxicab rates and abolishing private stands. The aldermen will bear me out in this."

Aldermen Marks, when seen at the District Attorney's office, declared that Mr. Wallace had worked hard and faithfully with the minority members of the committee to report out the ordinance which has been held up for the last eighteen months.

#### Six Aldermen Waive Immunity.

Six members of the taxicab ordinance committee—Aldermen Marks, Bolles, Brush, McCann, Cunningham and Coleman—formally signed waivers of immunity in Mr. Du Vivier's office yesterday, in view of their appearing as witnesses before the grand jury. Aldermen Grimm, chairman of the committee, signed a waiver on Monday. Aldermen Grimm is expected to be the first witness called at the resumption of the inquiry to-day. The other members of the committee will be examined before the grand jury by Mr. Du Vivier to-day and to-morrow.

Henry R. Swartz, vice-president and general manager of the Yellow Taxicab Company, was the principal witness before the grand jury yesterday. He was examined for two hours. John Clark, chief starter of the company, went before the grand jury with books and records of the company. Jesse Judson, assistant treasurer of the concern, was recalled as a witness. Other officials of the Yellow company will be witnesses to-day.

## WEDNESDAY, New-York Tribune. MAY 14, 1913.

### MAY DAY DANCES IN CENTRAL PARK YESTERDAY.

Deaf and dumb children dancing to the sound of a phonograph, which is audible to them.

View of the many May poles about which the children danced.

## FOWLS MADE FAT BY CEMENT

That's What New York Dealers' Representative Says in  
Telling of Troubles with Western Shippers—Live  
Poultry Tie-up May Boost Prices.

New York has been buying sand, gravel and cement under the impression that it was poultry, according to Eli Kastein, live poultry dealer, of No. 127 Broome street, who attributed the tie-up in West Washington Market yesterday to the buyers' discovery of the peculiar diet on which the Western Association of Live Poultry Shippers has been feeding its chickens.

No business was done throughout the day, and by evening no steps had been taken to arbitrate the dispute which threatens to boost the prices of live poultry in all parts of the city.

Kastein, who spoke in behalf of the New York dealers, said yesterday that the association, which owns 80 per cent of the live poultry that comes into New York, made a practice of refusing to deliver until it had forced the dealers to pay the highest possible prices. This, he said, frequently compelled the association to

leave its stock in railroad cars for several days. "While the fowls are in the cars," he said, "they are fed on cement, gravel, sand, and about everything that will keep up weight without proving an expense to the association, with the result that if a man buys ten pounds of live poultry he is more than likely to be getting nine pounds of poultry and one pound of sand."

Some of the shippers declared that the trouble was due to fowls being overfed, which, they said, tended to make the dealers suspicious of the overfeeding which was carried on with a view to increasing the weight of the stock immediately before sale.

Unless the dispute is settled this morning and poultry moved retail prices soon will reach prohibitive figures. Both dealers and shippers agreed, however, that a tremendous fall would come with peace, by reason of the accumulated supplies.

### ALEX. S. COCHRAN IN SUIT

Carpet Man's Heirs Asked for  
Property Accounting.

Lorenz Reich is suing the sons of the late William F. Cochran, head of a carpet manufacturing company in Yonkers, alleging that Cochran defrauded him out of a lease on the building at the southwest corner of Fifth avenue and 33d street, which was owned by the estate of William B. Astor. Reich names as defendant Alexander Smith Cochran, who, with William F. Cochran, his brother, is the executor of the will of their father, the Astor estate, Gorham & Co., one of the tenants in the Fifth avenue building. Reich wants an accounting of the alleged profits of \$150,000 a year for thirteen years.

The plaintiff says that prior to February 11, 1888, he owned the property in dispute under a lease from the estate of William B. Astor, which he took in 1886. While he was sick in bed, says Reich, Cochran and his agents induced him to sign a number of documents the contents of which were unknown to him because he was a man without education. These papers defrauded him, he charges.

### 434 SHERIFFS IN NASSAU

County Has a Peace Officer for Every  
Forty Voters.

In Nassau County the records show there are 434 deputy sheriffs, a proportion of one to every forty voters. John Lyon, County Controller, announced yesterday that at least one-third of the population wanted the badge of deputy sheriffs. The badges may be obtained at from \$5 to \$10 apiece, according to the Controller.

### GIRL DROWNS IN BATHTUB

Bertha Samuels, eighteen years old, a shirtwaist maker, was drowned in a bathtub yesterday afternoon in the apartment of Mrs. Sarah Agnos, with whom she boarded, at No. 128 1/2 Fifth avenue. She was found when the water from the tub began to trickle down to the apartment below and the janitor was called to stop the supposed leak. There was nothing to indicate suicide, and it is supposed the girl fainted.

### OLE BULL'S LEGACY GROWS

Violinist's Daughter's Estate  
Appraised at \$400,000.

The estate of Mrs. Ole Bull, the violinist, who died on July 15, 1911, in West Lebanon, Me., was valued yesterday by the State Transfer Tax Appraiser at \$400,000. Mrs. Vaughan received little of the property of her mother, Mrs. Sarah Bull, under the latter's will, most of the estate being bequeathed to Spiritualists. Mrs. Vaughan contested the will of her mother and succeeded in breaking it. She died soon after the termination of the litigation.

The estate of Mrs. Vaughan in New York amounted to \$11,749 in the form of stocks. There is a claim of \$50,000 against the estate for legal expenses growing out of the contest of her mother's will. Mrs. Vaughan left the residue of her estate, amounting to \$200,000, to her daughter, Mrs. Sylvia Bull Vaughan.

### AUCHINCLOSS WILL FILED

Legacy of \$7,500 Goes to Endow Bed  
in Presbyterian Hospital.

The will of Hugh Dudley Auchincloss, who died on April 21, was filed in the Surrogate's court yesterday. He leaves \$7,500 to the Presbyterian Hospital to endow a bed in memory of his mother, Mrs. Elizabeth Auchincloss.

Mr. Auchincloss was a member of the firm of Auchincloss Brothers. His home was at No. 23 East 67th street. He remembered his employees as follows: Mary Reilly, \$1,000; Vincent Scully, \$1,000; John Mahan, \$1,000; H. L. Martland, \$500, and Mary Scallon, \$500. Aaron A. Quinby, a friend, receives \$2,500 and a similar amount is left to the Kingsley Trust Association of New Haven. Mrs. Emma Brewster Auchincloss, his widow, is residuary legatee.

### MEN TO HELP OUT PARK SIGNS.

Park Commissioner Stover announced yesterday that all persons who strew paper, fruit skins and other trash about the park are liable to arrest, and that signs reading to that effect in Central Park mean just what they say. He asks parents to tell their children that. Twenty-two park employees, one at each entrance, will warn those who enter that violation of this rule will mean immediate arrest.

### FUSION CANDIDATES TO BE SELECTED SOON

General Committee Wants to  
Have Movement in Full  
Swing Early in June.

Plans for the fusion movement were discussed yesterday by the executive committee of the Committee of One Hundred and Seven, which received a report from the committee on plan and scope. There were differences of opinion as to just how far the fusion committee should go in the selection of candidates below the city and county tickets also as to the exact method to be pursued in selecting the candidates.

It was finally decided to ask the sub-committee on plan and scope to reconsider its report, and present it again at a meeting of the executive committee on Tuesday. The sub-committee on finance will also make a further report at that time. The executive committee will report in turn to the general committee at a meeting called for a week from to-day. It is the hope of Norman Hapgood, chairman of the general committee, that the candidates may be selected before the end of June, in order that there may be the fullest discussion of them prior to the meeting of the designating committee, which must make their designations for the primary ballots in the week beginning August 19.

The committee on plan and scope consists of Henry Moskowitz, chairman; Henry L. Sullivan, Henry de Forest Baldwin, William H. Hotchkiss, Darwin R. James, Jr., Nathan A. Smythe, Edward M. Bassett and Mr. Hapgood and Joseph M. Price, chairman of the executive committee, ex officio.

The sub-committee on finance includes Percival Kuhn, Isaac N. Seligman, Alfred E. Marling, Frederic Condit, William G. Wilcox and William G. Low. Lloyd C. Griscom, chairman of the sub-committee on law, was expected to make a report yesterday, but asked for more time. To it has been assigned the task of learning whether under the present law, as amended, it would be feasible for the committee to attempt to place its ticket on the ballot by such movements as this have already been discovered in the law. It is not unlikely that the committee may suggest to Governor Sulzer certain improvements for incorporation in the direct primary bill which he is to present to the special session of the Legislature.

It was decided to have the permanent headquarters of the committee in the Fifth Avenue Building.

### 4,000 FOR SUMMER SCHOOL

Record Enrolment Expected by Col-  
umbia University.

Columbia University expects an enrolment of more than four thousand students in its summer session course, which begins on July 7. A special centre for enrolment will be opened in the university gymnasium, where 1,000 students a day may be enrolled. The faculty will include 25 instructors and thirty-eight assistants, making a total of 381.

There will be evening classes for the first time in several subjects, including architectural drawing, elementary English, elementary French, elementary mathematics, stenography, typewriting and commercial arithmetic. The series of regular courses has also been greatly increased.

### ARRESTS MAN, HOUSES BRIDE

Woman Says Patent Broker Took  
Money for Fake Stock.

Paul Georges, a patent broker, of No. 127 Riverside Drive, with offices at No. 26 Fifth avenue, who was arrested on Friday night on a charge of grand larceny preferred by Mrs. Charlotte Wyman, of Canarsie, for the alleged sale of fraudulent stock, was arraigned in the Essex Market court yesterday before Magistrate Appleton. He waived examination and was held in \$10,000 bail for the grand jury. Georges had been previously arraigned on Saturday and asked that the hearing be postponed until yesterday. His bride of less than a year, who is only twenty, was in court. Since the arrest she has been a guest of Mrs. Wyman, who said that she deeply sympathized with the young woman and would do all in her power to aid her.

## 7,000 IN LAWN DANCES

Central Park Radiant with  
Happy School Children.

### MANY NEVER SAW SHEEP

Commissioner Stover Keeps  
Flock Out So All May Get  
Acquainted.

Seven thousand children dancing on the new spring grass, a forest of gay colored maypoles, and then rushing forward a sea of little white figures with happy upturned faces to sing "The Star Spangled Banner" around the bandstand—this was the picture Central Park saw yesterday in place of the usual placid flocks grazing in the Sheep Meadow.

It was the annual park fête of the girls' branch of the Public Schools Athletic League. Little girls all in white dresses, with big blue or pink or red hair ribbons to match the streamers of their maypoles, came from 20 public schools of Manhattan and The Bronx to wind up their year's work in athletics and folk dancing with one grand jubilee on real grass under real trees.

They had an unexpected treat in a sight of the sheep before the dancing began. This was due to Miss Elizabeth Burchenal, director of the public school athletics for girls, who remembered a day or so ago that the little city children had probably never seen lambs frolicking on the green, so she asked Park Commissioner Stover to allow the flocks to remain on exhibition until the very last minute. She was more than repaid by the chorus of delighted "Ahs!" which rose from those five thousand throats as they caught their first glimpse of the big white sheep and little wobbly baby lambs.

The afternoon's programme began when the last sheep had disappeared beyond the trees, and the boys' band from Public School 21 tuned up for the Swedish Carrousel.

Very few of the seven thousand dancers could hear the music, but that didn't matter. Children's steps are light and children's feet are fleet, and a dance is only play, anyway.

The most picturesque number, of course, was the winding of the maypoles, when the whole meadow became a swirling mass of pink and blue and green centering around the tall, flower-crowned poles.

The programme consisted of the following dances: Our little girls, carrousel, seven jumps, ace of diamonds, crooked hen, first of May, four dance, ribbon dance, Götland quadrille and maypole dance, and these games, punch ball, and ball, shuttle relay and pass ball relay.

Among the dancers were thirty-eight deaf and dumb children from Public School 47. Boy Scouts served as special patrols to keep the public in their proper places behind the roped inclosure. After the dancing was over they did noble service for the lost and found department.

Who is this little tear-stained figure? "Ethereal Welsburg? Public School 63, did you say, dearie? Well, now don't cry. We'll find your teacher." Thus Mrs. James Speyer, putting her arm around the thin little shoulders of Esther, of East 4th street.

Five minutes pass. Then every one brightens up.

"The Boy Scout has found 'em." Park Commissioner Stover was there, smiling, very proud of his grass, his sheep. It is his party.

"I always wanted to do this kind of thing," he says. "We'll have more this year. The kids ought to look upon the park as their place to play. Their fathers and mothers don't take any care of the kids, so they just naturally have to be turned over to me."

Among the guests of honor at the bandstand were Mrs. Alfred Steton Post, Miss Laura J. Post, Mrs. John Garrett Underhill, Mrs. W. Lannan Mull, Mrs. Thomas R. French, Mrs. Gustavus T. Kirby, Mrs. Catherine S. Leverich, Dr. E. Ward Hampton, William H. Maxwell, General George Wingate, Mrs. Ezeron Winthrop, Mrs. Cyrus W. Miller, Miss Martha Draper, Mrs. Lorillard Spencer, Mrs. De Laney Kane and Mrs. Henry Parsons.

## GAS EXPLOSION KILLS ONE, INJURES THREE

Four Literally Roasted When  
Tankroom of Jersey City Oil  
Works Is Wrecked.

### ROOF IS BLOWN AWAY

New Machinery Just Installed,  
and Employees Were Being  
Instructed in Its Use—  
Cause Is Not Known.

One man was killed, one mortally and two seriously injured by an explosion yesterday afternoon in the Baker Castor Oil Works, in Jersey City.

The dead man was Edward Brady, thirty-five years old, whose home was at No. 189 Railroad avenue, Jersey City.

The victims taken to St. Francis's Hospital are:

JAMES PAYTON, forty years old, Fall River, Mass., dying.

JOHN MAHON, thirty-four years old, No. 402 Ocean avenue, Jersey City.

JOHN DRISCOLL, fifty-one years old, No. 257 Henderson street, Jersey City.

The men were literally roasted. They were hurled against a side of the building, enveloped in flame and scorched from head to foot. Dr. Perlberg, who was near, heard the explosion and hastened to give assistance. He bathed the sufferers in oil while awaiting the arrival of ambulances and police patrols, in which they were conveyed to the hospital.

Brady lived about four hours. Payton's condition last evening was so serious that hope was abandoned.

The explosion occurred in a recently constructed extension of steel and concrete about 6 by 70 feet and 9 feet high, in which had been installed five naphtha and gasoline tanks, each sufficiently large to receive the contents of a boiler tank car.

One of the tanks, known as the "elevator tank," was connected with others in the main building, which faces Washington and Bay streets. The connection was by a cylinder, and the oil was transferred by a screw.

The extension was filled with the fumes of naphtha, and as there was no fire or light in the structure, it is believed that the explosion was caused by the connecting cylinders becoming overheated or by a spark being emitted.

Whatever the cause, the explosion was like a charge of powder set off in a cannon. There was a terrific report, a cloud of flame and the corrugated iron roof was carried off. The concussion was felt for half a mile. Pieces of the roof in falling carried down telegraph, telephone and other electric wires, stopping machinery or extinguishing lights in many factories in the section. An alarm was sounded, but there was no fire to fight.

Many hastened to the relief of the victims, but they could do no more than place them on improvised beds until Dr. Perlberg arrived. Then oil was applied to allay the excruciating agony caused by the burns.

The tanks and machinery had been just installed by a firm in Fall River, and Payton, who had charge of the work, was instructing the other three how to operate it.

Besides castor oil, the company manufactures essential and other oils, and had installed the volatile fluids in the extension to lessen the risk to the main structure.

### POLICE CLOSE ON TRAIL OF TRIPLE SLAYER

Two Italians Under Arrest, Be-  
lieved to Have Been Implicat-  
ed in Patronen's Killing.

Although the police would not say so openly, they believe that in the arrest of two Italians last evening the trail that leads to the man who shot and killed Patronen Teare and Heaney and John Rizzo, a "gangster," on May 3, is approaching its end. One of last night's prisoners, "Sam" Shillitoni, is a cousin of Oreste Shillitoni, whom the police have sent out a general alarm for on the charge of having committed the murders.

The charges against "Sam" Shillitoni and Evario Del Peppo, the other man arrested last night, are carrying concealed weapons and being suspicious persons. Both were locked up in the Mulberry street station.

At first the police said that the only charge against the prisoners was being suspicious persons, but later the charge of carrying concealed weapons was entered, and the names of two persons, Florence Gleason and Louis Lacombe, both living at No. 25 West 145th street, appeared as complainants.

It is believed by the police that "Sam" Shillitoni and Del Peppo have been making their homes at the West 145th street house, and that Oreste Shillitoni, the man charged with the triple killing, was also shielded in the same house.

Both prisoners are believed to have been implicated in the killing of the two patrolmen and Rizzo on May 3. Inspector Faurot summoned several of "Sam" Shillitoni's relatives and friends to Headquarters last night, remaining cloistered with them for almost two hours. The police are working on the theory that the slayer is still in New York, and believe his arrest is only a matter of a few days.

At No. 25 West 145th street, a flat-house, Mrs. Sheridan, the janitor, said that two men and two women had rented three rooms a week ago Saturday, the night Patronen Teare and Heaney and Rizzo were slain. They had remained there until yesterday morning. She said they impressed her as being "hard," but as they did nothing that would warrant their being asked to move she thought little about them.

From a man prominent politically in Italian circles on the lower East side it was learned last night the police are seeking Frank Rizzo, alias "Scrubby." It is said they are fully as anxious to arrest "Scrubby" as they are to capture Oreste Shillitoni. He is said to be no relation to John Rizzo, the man who was killed.

### BOX BOARD DEMURRERS LOST

Judge May Overrules Objection to  
Conspiracy Indictment.

Judge Julius M. Mayer in the Federal District Court yesterday afternoon overruled the demurrers of William C. Greer and eighteen other defendants included in the Eastern Box Board Club, of No. 50 Church street, to the indictment charging conspiracy and combination in restraint of interstate trade and commerce in violation of the Sherman law.

The indictment was challenged in the

Suppose you had just discovered our stores and found one way to keep down the high cost of motoring.

Wouldn't you smile too? The volume of our Motor Wear lets us keep up a splendid variety.

But the volume of our general business allows economies with which specialty shops can't cope.

Dusters, lap robes and steamer rugs. Caps, goggles and gauntlets with perforated backs and reinforced palms.

Tire trunks for use with or without demountable rims. Motor Kitchenettes.

Chauffeurs' liveries. Serviceable Summer whips.

Changing the subject—Why not get your "straw" before the rush is on?
